

**Memorandum of Understanding**  
**Between**  
**The Hub Jorhat, Bosco Institute**  
**and**  
**Mariani College, Mariani, Jorhat**

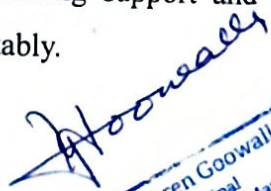

**The Hub Jorhat** is an initiative of **Bosco Institute**, which was established by the Salesians of Don Bosco of Dimapur province as a college in 2008, to impart 2 year MSW (Master in Social Work) degree from Dibrugarh University.

**Bosco Institute**, through the activities of **The Hub Jorhat** promotes “entrepreneurship” as a dignified and sustainable means of poverty alleviation and social development. All the social work graduates at Bosco Institute undergo workshops on entrepreneurship so that they can promote it in their area of work and become self-reliant. The Institute has been supporting young social entrepreneurs since 2012, through the ‘Youth Involve Social Entrepreneurship Development’ programme.

The Hub Jorhat is envisioned as a space to enable entrepreneurs and empower entrepreneurship, and thus contribute to financial security, social stability and ecological sustainability of the region. The Makerspace and the Co-working space at The Hub Jorhat are unique offerings for entrepreneurs and young people in a town like Jorhat.

The Hub Jorhat, Bosco Institute, promotes entrepreneurship in the region through:

1. Experiential workshops and various immersive events for school, college and university students and other young people to explore their innovative ideas and to instil in them the entrepreneurial mind-set
2. Incubation of young aspiring as well as existing entrepreneurs through Ne-Vent, an 8 month long journey of 6 immersions and mentoring support.
3. Nurturing micro enterprises by providing training and post training support and guidance to start their enterprises or sustain their enterprise profitably.

  
Dr. Horen Goowalla  
Principal  
Mariani College, Mariani

### **Understanding between both the Institutions**

Both the Institutions understand the need for cross exchange of ideas, talents and skills for advancement of wholesome education and overall growth of students in both the institutions.

Considering the big numbers of graduates and post graduates passing out from the institutions in the north east, getting well paid and satisfying jobs is not easy. There is therefore, a pressing need of inculcating an entrepreneurial / problem solving mind-set among the students to alleviate the growing unemployment scenario in the region.

### **With the above understanding, both the institutions agree to the following:**

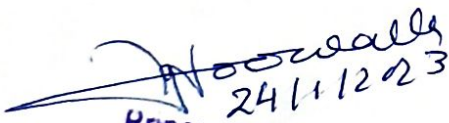

1. Addressing the college students with information about the facilities and services offered by The Hub Jorhat – the Makerspace, Co-Working Space, Incubation programmes, Micro-entrepreneurship training and other workshops and events organized by the Hub Jorhat.
2. Awareness programme on innovation and entrepreneurship, meeting the incubatees/ entrepreneurs from the NE-Vent (the incubation programme) of the Hub Jorhat and mentoring support to the students of Mariani College who have entrepreneurial ideas.

  
Dr. Indira Goswami  
Principal  
Mariani College, Mariani

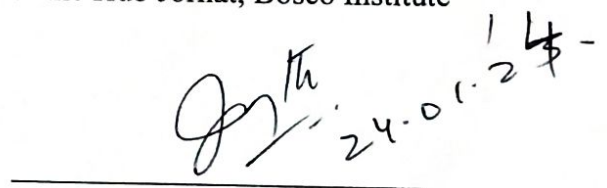

3. Information and updates and invitation to different programmes at the Hub Jorhat, Bosco Institute like, innovative design challenge, webinars, incubation programme, workshops, hackathon, entrepreneurship fair etc. could be organised at Mariani College campus.
4. The students from Mariani College will visit the Hub Jorhat, Bosco Institute on exposure visits. In similar manner students from Bosco Institute will visit Mariani College for educational purposes.
5. Offer 10 percent discount on membership rates of the Makerspace for Mariani College students. Involve the students in relevant technical projects of the makerspace.
6. The Mariani college students can undergo Internship at the Hub Jorhat as part of their course/ assignments.
7. Both the undersigning institutions may organise joint seminars, workshop, public programmes and trainings for greater benefit of the youth of the region.
8. Both the institutions will share their expertise for benefit of the youth of the region.
9. Details on the activities and conditions to be undertaken together by both the institutions can be worked out at the appropriate time.
