

NATIONAL SCIENCE DAY OBSERVED on 28TH February 2024

The teachers and students of Mariani College Science Section organized National Science Day in the Science Premises. Dr. Chironjit Hazarika of Physics department briefed about the significance of the day and discovery of 'Raman Effect' by the great Indian Physicist Sir C. V. Raman in 1928. Dr. Hemen Saikia of Zoology department also spoke on the occasion and advised students to cultivate scientific temper. Dr. Raj Kumar Gohain Baruah described briefly about this year's theme 'Indigenous Technologies for Viksit Bharat'. Dr. Bhaskar Buragohain in his speech encouraged students to enhance curiosity and analyzing ability. Mrs. M. Dutta Bora of Chemistry department opined that indigenous technologies can contribute to the country's development. A good number of students of science stream were participated in the meeting.
